Group1

Dental students (including interns)

Group2

Dental professionals (PG students, faculty and practitioners)

Topics and Subtopics

General Dentistry and Oral Health

- ‡ a. Oral Health & Systemic Health
- ‡ b. Digital Dentistry
- ‡ c. Gerodontology
- ‡ d. Special Care Dentistry
- ‡ e. Others

Preventive Dentistry

- ‡ a. Caries Prevention
- ‡ b. Periodontology
- ‡ c. Epidemiology

- ↓ d. Orthodontics
- ↓ e. Public Health
- ↓ f. Pedodontics

Dental Treatment & Restorative Dentistry

- ↓ a. Caries
- ↓ b. Periodontics
- ↓ c. Endodontics
- ↓ d. Pedodontics
- ↓ e. Materials
- ↓ f. Esthetics
- ↓ g. Prosthetics
- ↓ h. Dental Erosion & Non-carious Lesions

Oral Surgery & Oral Medicine

- ↓ a. Implantology
- ↓ b. Dental Radiology
- ↓ c. LASERS
- ↓ d. TMJ management
- ↓ e. Oral Surgery
- ↓ f. Oral Medicine
- ↓ g. Oral Pathology
- ↓ h. Oral Immunology
- ↓ i. Forensic Odontology

Tobacco Intervention Initiative

- ↓ a. Preventive
- ↓ b. Interceptive
- ↓ c. Corrective

Oral Cancer

- ↓ a. Preventive
- ↓ b. Interceptive
- ↓ c. Corrective

Medical & Dental Emergencies

- ↓ a. Overview & Classification
- ↓ b. Management

Management of children

- ↓ a. Preventive
- ↓ b. Interceptive
- ↓ c. Corrective

Cleft lip/Cleft palate

- ↓ a. Interceptive
- ↓ b. Corrective

Forensic Odontology

- ↓ a. Forensic application in dentistry
- ↓ b. Victim identification
- ↓ c. Age & sex determination

Sports Dentistry

- ↓ a. Preventive
- ↓ b. Interceptive
- ↓ c. Corrective

Public health (national oral health observation)

- ↓ a. Preventive
- ↓ b. Interceptive
- ↓ c. Corrective

Abstract Format

The abstract should be formulated under the following headings:

Aim or purpose :

In one brief sentence, provide the rationale for the investigation and/or the question to be answered.

Materials and Methods :

The experimental conditions should be reported briefly (i.e. age group, nature of the animals, sex, and approval from the Ethics Committee at the presenter's institution). The clinical approach should be precise, and the period of time studied taken into account in the interpretation. The methods used should also be clearly indicated (i.e. image analysis, biochemical data, histological, immune histological or molecular probes used for the analysis of the data, statistical significance).

Results :

The results should be stated in a maximum of three sentences.

Conclusions :

This is any conclusion(s) that can be drawn from the presentation. This final statement is crucial because it supports the scientific value of the abstract. (Case study can be written under the heading: Introduction, Case Report, Discussion, Conclusion)

Criteria for abstract selection;

The decisions in this regard taken by the scientific committee are binding and final.

Abstract acceptance letters will be sent to the submitting author's contact e-mail address he/she entered in the system. All abstracts to be mailed to ksdcscientific@gmail.com on or before **20th December 2017**. In case the topic appears unappealing or unsuitable, it may be recommended under poster category.

By the judges/reviewers is based on

- ↓ Scientific or Clinical interest in the question to be assessed
- ↓ Sufficient data provided
- ↓ Innovation
- ↓ Clinical impact
